

Refund Policy

Acme SaaS Co. | Last updated: January 2026

1. Eligibility for Refunds

Customers may request a full refund within 14 days of purchase for annual subscription plans, and within 7 days of purchase for monthly subscription plans. To be eligible, the account must not have exceeded standard usage limits for the plan tier purchased.

2. Duplicate Charges

If a customer is charged more than once for the same billing period due to a payment processing error, the duplicate charge is eligible for a full refund regardless of the standard refund window above. The billing team must verify both transaction IDs before processing.

Typical resolution steps for a reported duplicate charge:

- Locate both transactions in the billing dashboard using the customer's email or account ID.
- Confirm both transactions reference the same billing period and plan.
- Submit the duplicate transaction for refund review by the billing team.
- Refunds for verified duplicate charges are typically completed within 5-7 business days.

3. Partial Refunds

Partial refunds for unused subscription time are available on a case-by-case basis for annual plans only, calculated on a pro-rata basis from the date the cancellation request is received. Monthly plans are not eligible for partial refunds.

4. Non-Refundable Items

The following are not eligible for refund under this policy: one-time setup or onboarding fees, add-on usage charges already consumed (e.g. API overage fees), and third-party marketplace integration fees billed separately by the third party.

5. How to Request a Refund

Refund requests should be submitted through a support ticket with the account email and, where applicable, the transaction ID. Approved refunds are processed to the original payment method within 3-5 business days and typically appear on the customer's statement within 5-10 business days, depending on the issuing bank.

6. Escalation

Refund requests exceeding \$500, or involving a customer's third reported billing issue within 90 days, must be escalated to the Billing department for manual review rather than approved directly by the support agent.
